

# MAKING **BLOCKCHAIN** REAL FOR BUSINESS

Strategy Assessment, Solution Design, and Solution Build & Implementation

**ChainNinja**  
Blockchain Solutions

# HOLISTIC SOLUTIONS IN FINANCE AND BANKING

## Why ChainNinja?

- Blockchain Framework Agnostic
- Custom End to End Solutions
- We are open for specialized block-chains
- We provide Enterprise blockchain concepts
- Purpose-built infrastructure components for a specialized use case
- Collaborative, Agile, and Efficient in every step of providing our client a field-tested Proof of Concept

## Choose a Blockchain framework based on your business considerations

- Open platform and open governance
- Economic viability of the solution
- Longevity of the solution
- Coexistence with adjacent systems
- Regulatory compliance

## What's happening in your industry?

- Making lawmakers understand how specific Blockchain solutions work in order to gain approvals is a large initiative with the banks
- According to Santander Blockchain-based solutions could generate cost savings of up to \$20 billion per year

## ChainNinja Turns Disruptive Technology into Innovative Solutions

Efficiencies resulting from Distributed Ledger Technology (DLT) can add up to some considerable cost savings. DLT systems make it possible for businesses to streamline internal operations, dramatically reducing the expenses, mistakes, and delays caused by traditional methods for reconciliation of records. The widespread adoption of DLT is bringing enormous cost savings in many areas.

While a trader can now execute a transaction at lightning speed, it can take as long as three days for that transaction to settle. With DLT, execution, clearing and settlement could occur simultaneously thus minimizing cost quite significantly.

Electronic ledgers are much cheaper to maintain than traditional systems. Fully automated DLT systems result in fewer errors, and the elimination of repetitive confirmation steps by a significant margin.

Minimizing the processing delay also means less capital being held against the risks of pending transactions

## ChainNinja Offers Holistic Blockchain Solutions in Banking and Finance

- ✓ "KYC"
- ✓ "Trade Finance"
- ✓ "Reference Data"
- ✓ "Payments"
- ✓ "Private Equity Funds"
